

MICROBIOLOGY

496 Petition Form

Faculty outside of the microbiology department often mentor students in MICROM 496. In order for faculty members outside of our department to receive faculty load credit for supervising 496, students, we will need to have the Employee ID number of the mentor. In addition, we need a brief description of the literature review or project write up that will be done by the student. If you have questions, please contact Josey Overfield, Academic Adviser, Department of Microbiology – microadv@uw.edu

Student Name	Email Address	Student Number
--------------	---------------	----------------

Faculty Sponsor Name <i>(Please Print)</i>	Email Address	Department
--	---------------	------------

Faculty Employee ID Number (9-digit number)

Brief project description of library research topic (to be completed by student). In your description please explain how this is related to microbiology (<500 words or less).
